**Banking & Domain:** Wealth Management, KYC/AML & Suitability, Digital Banking, Omnichannel Onboarding, Commercial Banking, Payments (EFT and Wires), CIAM

### PROFESSIONAL EXPERIENCE

---

#### Senior Product Owner, Omnichannel Investment Onboarding

August 2025 – Present

*CIBC Investor's Edge, Wealth Management | Toronto, Ontario, Canada*

Accountable for end-to-end investment onboarding on CIBC's flagship brokerage platform

- Connected Advice (CEO visibility): Co-leading CIBC's first self-serve digital advice flow end-to-end — account opening through KYC/AML, suitability, Risk Profiling, legal, compliance, etc., as part of the 0-to-1 omnichannel investing solution that unified previously siloed Personal Banking, Capital Markets, and Wealth into a single investment hub serving Digital Advice, Self-Directed Investing, and Private Wealth segments
- Owned the multi-year product roadmap for brokerage onboarding modernization, improving completion rate by 10% and cutting onboarding time by 15% through iterative release management
- Drove operating model transformation, migrating delivery from waterfall to Agile in two months and lifting development efficiency by 20%, while standing up an AI use-case pipeline, executive dashboards, and cross-functional workshops

### **Senior Consultant, Process Optimization**

**June 2024 – August 2025**

*CIBC Commercial Banking and Wealth Management | Toronto, Ontario, Canada*

Served as a strategic advisor to Private Wealth and Commercial Banking leadership on portfolio prioritization, business case governance, and enterprise process transformation.

- Saved \$300K in external consulting fees for CIBC Private Wealth within one year by standing up executive decision infrastructure for initiative validation
- Introduced an enterprise cost-benefit framework for validating initiatives across Private Wealth; supported a bi-weekly Executive Steering Committee
- Led a UHNW advisor research program (11 branch visits, 24 interviews, 36 surveys), synthesizing findings into 45 pain points and 12 prioritized initiatives for executive decision-making
- Built the business case for an AI-powered disclaimer search tool that lifted productivity 60%; drafted migration strategy for 21,000+ documents from Wood Gundy to Knowledge Central
- Led GenAI workflow automation initiatives, designing GPT prompts to streamline processes and establishing an escalation triage funnel to focus leadership on high-impact issues

### **Product Manager, Digital Channels**

**April 2022 – May 2024**

*Scotiabank, Global Transaction Banking | Toronto, Ontario, Canada*

Served as product owner for Scotiabank's ScotiaConnect digital channels, with full lifecycle accountability across payments, deposits, statements, analytics, and authentication for more than 60,000 business banking customers.

- Managed full lifecycle of EFT and Wire payments products, leading a 10-person cross-functional agile team and releasing new payment flows to the full customer base, increasing payments revenue by 6%
- Led the release of the Online Loan Statement product — the #1 NPS detractor for years — cutting ~500 manual hours and 400 helpdesk calls per month, and generating an estimated \$800K from cost reductions
- Led design and go-to-market strategy for GIC online purchase capabilities for the small business segment, doubling purchase flow conversion rate
- Introduced Adobe Analytics to ScotiaConnect as the first product owner to do so; presented insights to senior leadership, secured funding for iteration two, and lifted incoming wire tracking success rate from 5% to 80%
- Audited authentication flows across ScotiaConnect, designed the future-state CIAM solution, and secured \$12M in annual funding approval after presenting to leadership

### **Manager, Product Design and Product Management**

**January 2021 – March 2022**

*Avasta Incorporated | Toronto, Ontario, Canada*

- Designed and commercialized a new corporate training product that generated \$112,000 in gross revenue within one month of launch; as people manager for product design and product management, owned vision, roadmap, backlog, and operating processes.
- Led cross-functional teams of designers, marketers, sales professionals, and data scientists through prototyping, usability testing, agile delivery, release management, and go-to-market execution.

### **Partner and Lead Product Manager**

**May 2015 – July 2019**

*Les Escargots Education Co., Ltd. | Beijing, China*

Start-up specializing in online education for French learners.

- Led the development of a native exam-simulator application that was adopted by more than 30,000 users, leveraging qualitative and quantitative data to validate scope and groom the product backlog.
- Led marketing initiatives that grew the firm's social media following to more than 40,000 followers by coaching the team to adopt agile practices, including stand-up meetings, Kanban boards, and regular brainstorm sessions.
- Increased revenue by 40% annually through data-driven product decisions and disciplined backlog management.
